

The town of Plymouth planning board met on April 1, 2026. A quorum was present.

Prior to the meeting, an online Department of State webinar entitled ***Online Meetings and Hearings*** was presented which qualified for 1 of the 4 required hours of education.

Following the webinar, the Town of Plymouth Planning Board took place.

Nothing new was presented and the committee worked on the logistics of securing the Comprehensive Plan Survey.

It was mutually agreed that holding a webinar prior to the Committee Meeting was an efficient method of compliance and a different course will be taken prior to next month's meeting. This is not to be considered a "Planning Board" meeting but a group webinar to assist the planning board members meet the education requirements.

Kind regards,

John Owens
